To Our Valued Clients:

We have been working with our clients as they are implementing telemedicine to take care of their patients. While established patients are likely to be the majority of a practice's telehealth services, we have been discussing how to take care of new patients and if telehealth is able to be billed.

The Centers for Medicare and Medicaid Services ("CMS") has issued a statement on this topic, and has included new patient E&M codes in the list of payable codes. During the COVID-19 pandemic, CMS has published a notice that it will not enforce the established patient requirement.

Based on the CMS statement, **New Patient Telehealth visits can be billed during the COVID-19 pandemic.**

We will continue to update you as we learn more through this pandemic.
